

Will You Be Working During Retirement?

According to a recent survey by the Census Bureau (AP May 21, 2003), the number of Americans past retirement age and in the job market has risen over the past two decades. While some want to keep working; others have no choice.

According to the survey, these are some of the main reasons retirees are returning to work:

- ◆ Stock Market Losses
- ◆ Inadequate Social Security Benefits
- ◆ Rising Costs of Prescription Drugs
- ◆ Worries About the Struggling Economy

The survey also stated that most of these people took low-level administrative or service jobs.

A Fort Dearborn Life Fixed Annuity can help you meet your retirement income goals.
